Semester	: 4th
Date of Submission	: 24 December 2024

Amazon's website adheres to the following principles

Match Between the System and the Real World

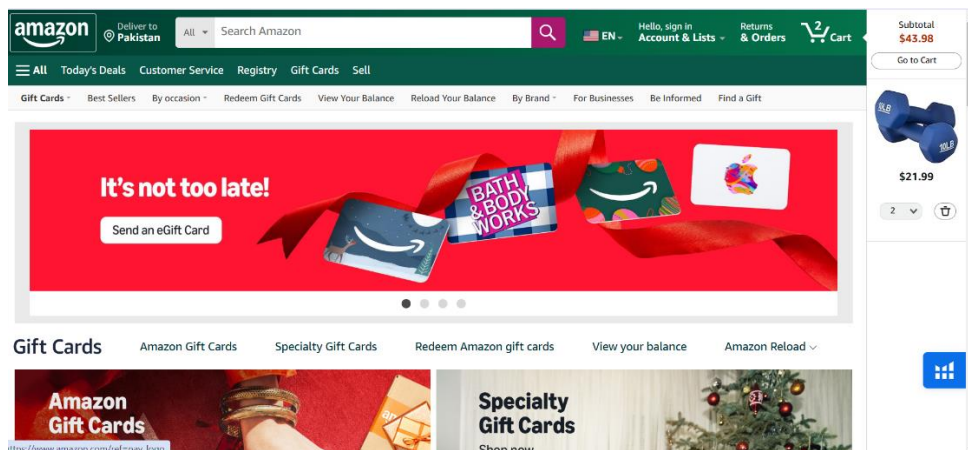

In Amazon we have the labels like Today's deals, Customer service, Registry, Gifts card Sell Carts and many more labels which when a customer see the customer knows that what the label is about.

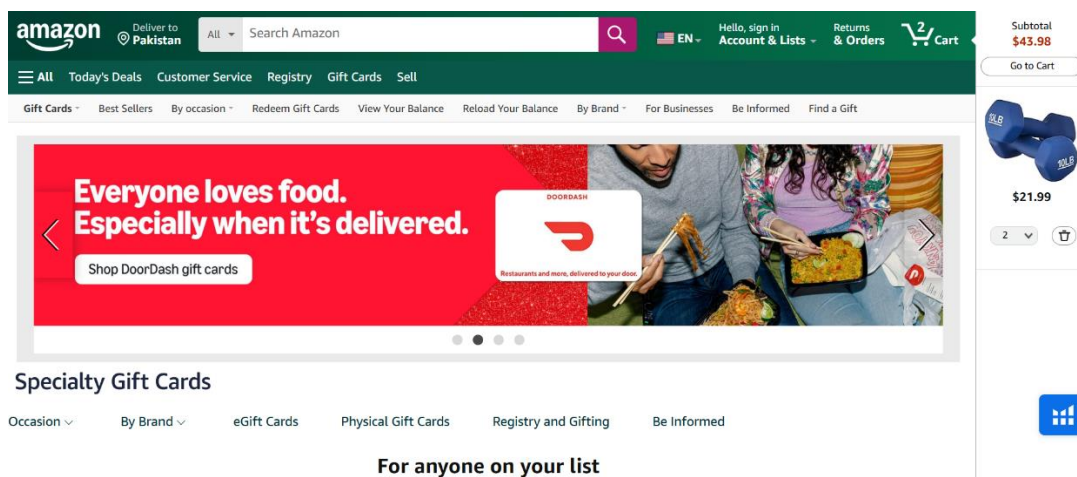

Consistency & standards

In Amazon, the main navigation bar, have the same options like (Today's deals, Customer service, Registry, Gifts card, Sell, and Carts etc on every page of the amazon.

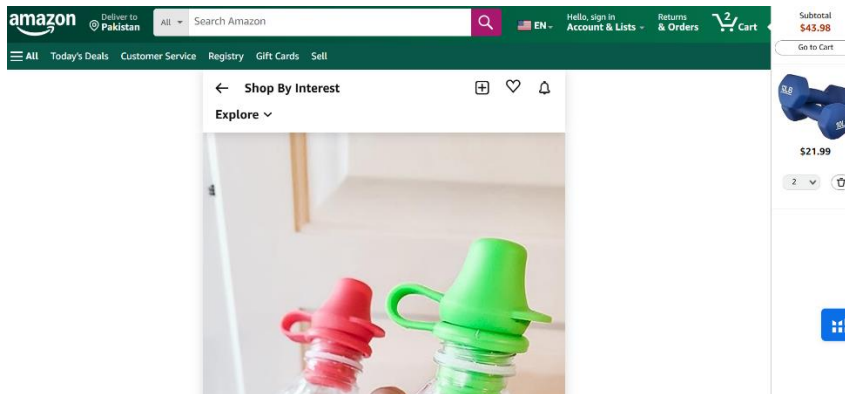

This is the page (Gift Cards)

This is another page

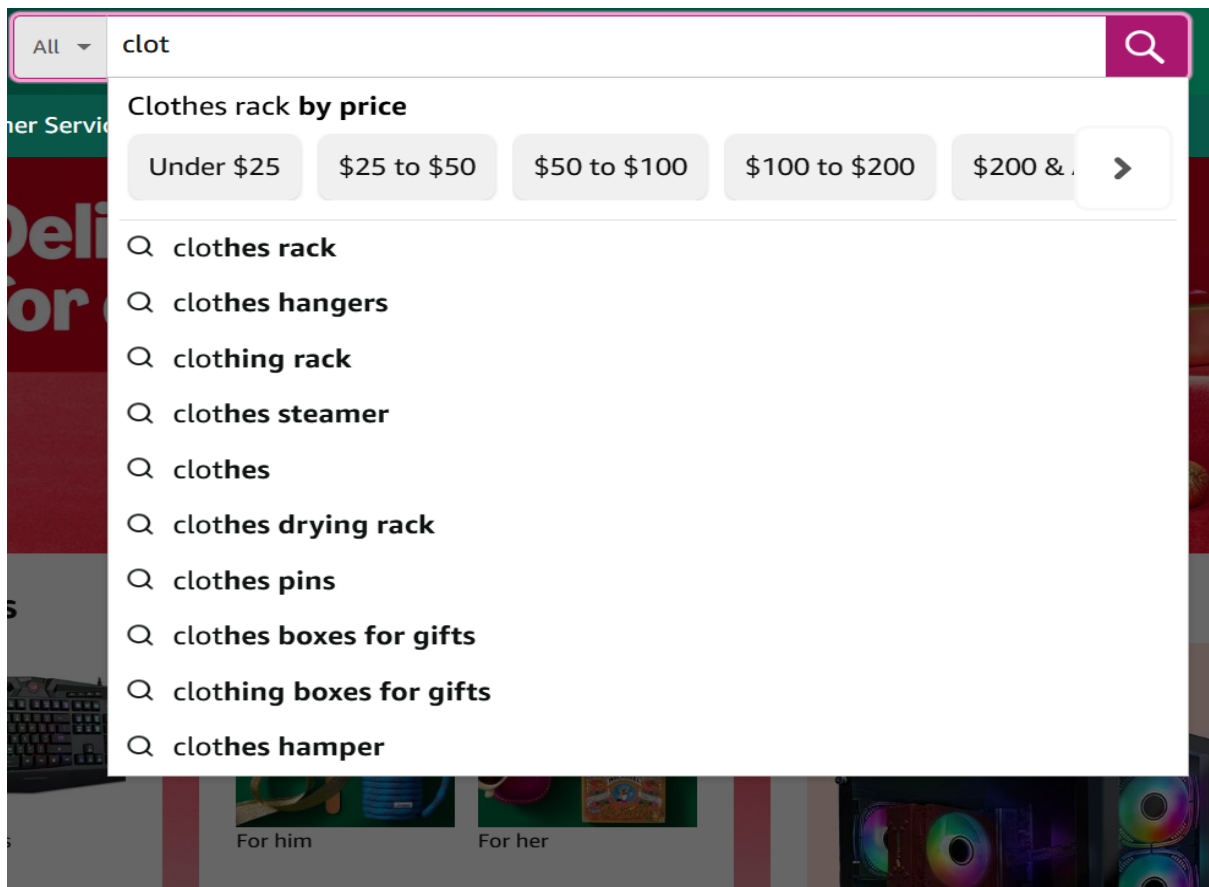

This is the page of when i select a product

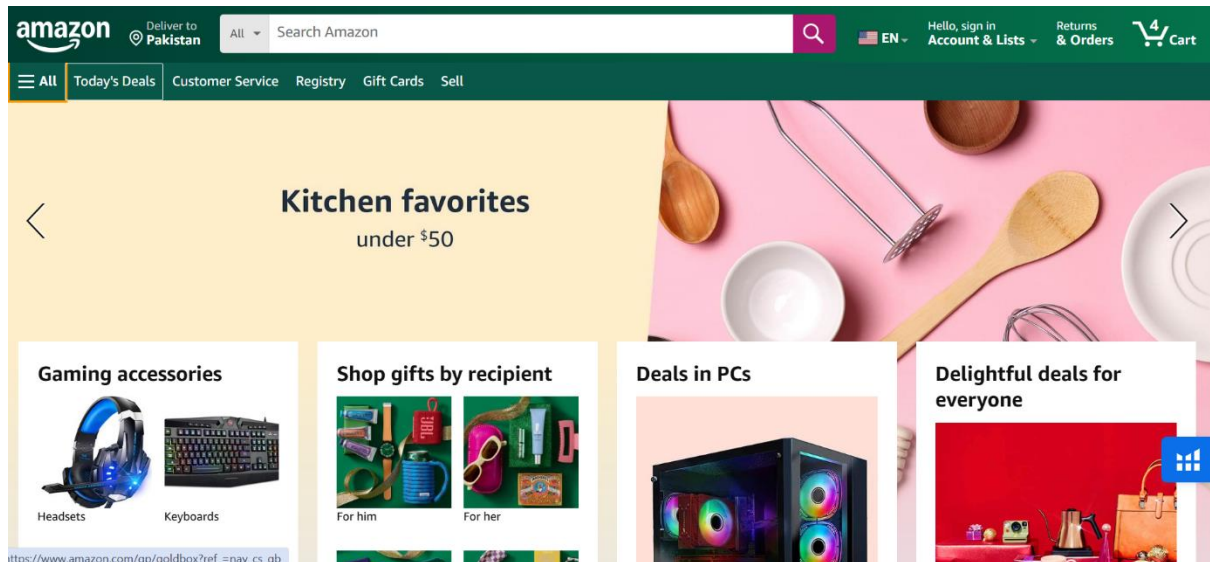

Recognition, not recall

In the search bar of amazon I typed just clo and it suggest me cloth rack, cloth hangers, clothing rack, clothes steamer etc automatically and I want clothes hanger so I just select it.

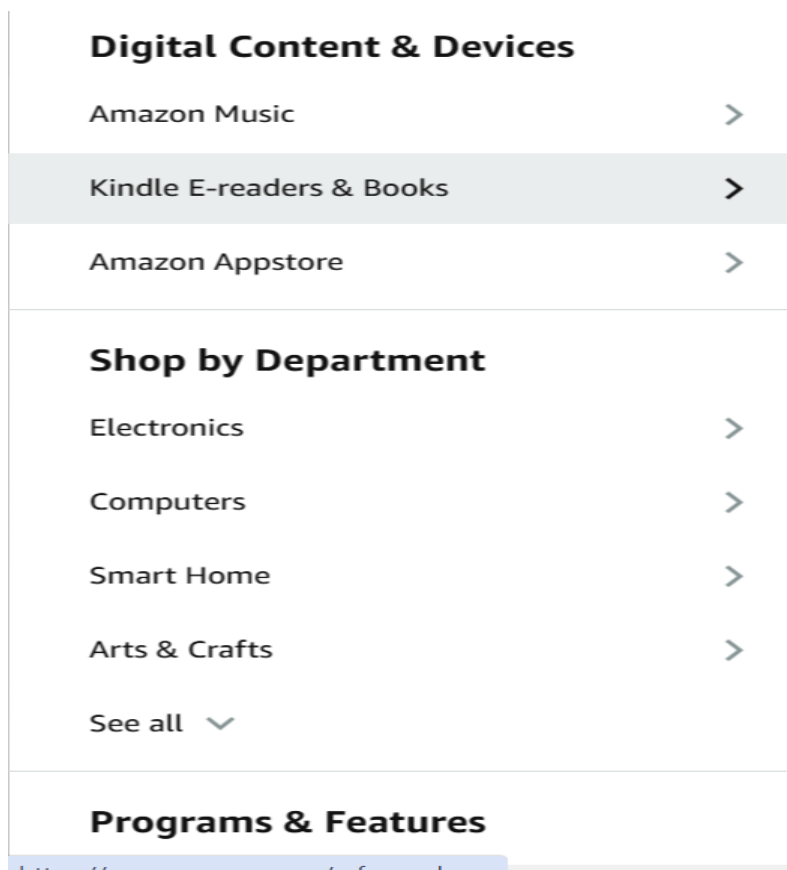

Aesthetic and minimalist design

Amazon have clear labels and categories with the help of which a customer clearly identifies that what to select which category to go.

If a customer want a knife, the customer will not waste time on finding the knife, the customer will go in (Smart Home) Category.

And then the customer will select kitchen category and knife will be found there easily.

New Smart Devices

Heating and Cooling

Detectors and Sensors

Home Entertainment

Pet

Voice Assistants and Hubs

Kitchen

Vacuums and Mops

Lawn and Garden

WIFI and Networking

Other Solutions

Error prevention

When an invalid information is added anywhere it gives an error message for correctness

In amazon when I entered an invalid zip code it gives me a clear error message
